As a subscriber to XM radio, I see the need for the local programs. I was tired of the same old Clear Channel Communications boring programming. I had to look else where. Now I hear bands I would never hear and purchase more music than I have in the past due to the expanded choices. I also travel for business regularly and the local traffic on XM provides more service for my dollar. This petition 04-160 should be rejected due to the fact that it does not allow the American people the freedom of choice on how they receive music, news, traffic, wheather, and information.
